- Branding
- Visual Identity
- Logo Designs
- Printing Designs
- Social Media Designs
- Packaging Designs
- User Flow & Journey Mapping
- Collaboration Tools
- Wireframing
- Affinity Mapping
- Information Architecture
- Responsive Design

PROJECT

Tea Gold – Premium Tea Brand Concept
https://www.behance.net/gallery/222021441/Branding

Tea Gold is a premium tea powder branding project focused on creating a fresh and natural identity. Using Adobe Illustrator, Photoshop, and InDesign, I designed a complete visual system including logo, packaging, marketing materials, and digital assets.

Ambio Space App – Interior Design App
UI Case Study   https://www.behance.net/gallery/225658937/Interior-Design-Application-UI-Design
UX Case Study   https://www.behance.net/gallery/225657229/Interior-Design-Application-UX-Design

Ambio Space is an interior design app that simplifies space planning and visualization. I began with low-fidelity wireframes in Balsamiq to map core user flows, then transitioned to Figma for high-fidelity, interactive prototypes. This approach ensured a user-centered, functional, and visually appealing design.
